EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Paul Denk on 2/21/04.

The application has been amended as follows:

In the Claims:

1. In claim 20 line 9, change "the front panel" to --the location of the at least two front panels--.

8. In claim 20 line 19, change “and the outer dimension” to –, and an outer dimension of the flat structure--.
9. In claim 20 line 19-20, change “the front and side panels” to –the at least two front panels **or** the pair of side panels--.

Allowable Subject Matter

2. Claims 20-29 are allowed.
3. The following is an examiner’s statement of reasons for allowance:

The primary reason for the allowability of claims 20-29 is the inclusion therein, in combination of the limitation of a secure cage comprising a pair of side panels, at least two front panels foldably attached and hingedly attached, at least one attachment

device for attachment to the manhole structure comprising one of a hasp and angle. This limitation is found in claims 20-29 and is neither disclosed nor taught by the prior art of record, alone or in combination.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

4. Applicant's arguments and amendments filed 11/24/03 have been fully considered and finds the argument along with the amendments to the claim persuasive. Examiner agrees that the prior arts in combination or alone, do not teach or suggest of using "panels which would allow them to be permanently affixed or removably affixed to a manhole structure" as cited in the argument.
